

Conflict Minerals Policy Statement

Christie Digital Systems USA, Inc. and Christie Digital Systems Canada Inc. and their subsidiaries (collectively, "Christie") are committed to sourcing components and materials from companies that share our values regarding respect for human rights, integrity and environmental responsibility.

Although Christie is not subject to the compliance and reporting requirements of the United States Securities and Exchange Commission, , Christie is committed to complying with (i) the applicable sections of the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas and (ii) the requirements of Section 1502 of the U.S. *Dodd-Frank Wall Street Reform and Consumer Protection Act* , which aims to prevent the use of minerals that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo or in adjoining countries.

Each affected supplier to Christie will be required to provide a completed Conflict Minerals Reporting Template (CMRT) in a form specified by Christie documenting facilities refining and smelting any conflict minerals, which currently includes tin, tantalum, tungsten, and gold, that it supplies to Christie.

For more information on Christie's Conflict Minerals program, please contact Christie by e-mail at conflict.minerals@christiedigital.com.
