

# PRODUCT CHANGE NOTIFICATION

Christie CP4430-RGB

We are replacing the Christie® CP4430-RGB cinema projector with two new pure laser projectors for more options and better operational efficiency.

We continue to advance our cinema product portfolio so that it more accurately addresses the needs of the market. As a result, on July 31, 2022, we are discontinuing the Christie® CP4430-RGB pure laser cinema projector and expanding our Real|Laser™ portfolio with two new products: the CP4425-RGB and CP4435-RGB, with 26,000 and 35,000 lumens respectively, to better suit different screen requirements while also improving operational efficiency to save energy costs.

If you have any questions regarding this product change notification or want more information on the new replacement products, please contact us.

## Product name & number
