

Upgrading DDP FW via USB(For end user)

Before upgrading, please prepare the following.

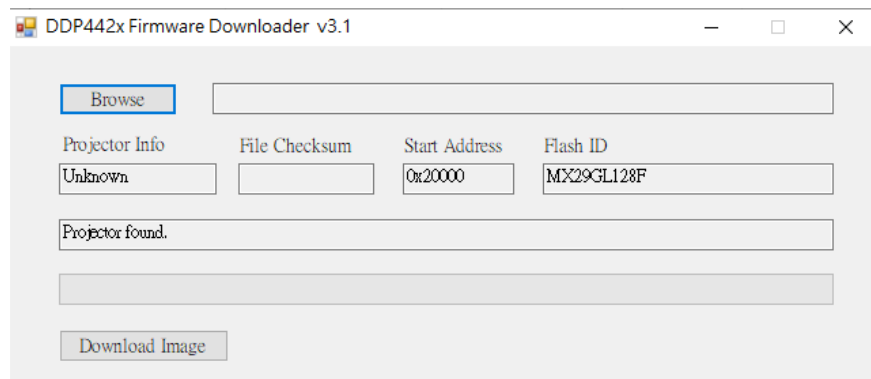

- Projector(with power cord)
- PC(Windows 10 is better)
- USB(Type B to type A)

1. Connect the USB cable with PC and projector without power cord plugged(Projector type B connector to PC type A connector)
2. **Hold** the keypad **enter** and key and then plug in the power cord.(ALL LED indicates)

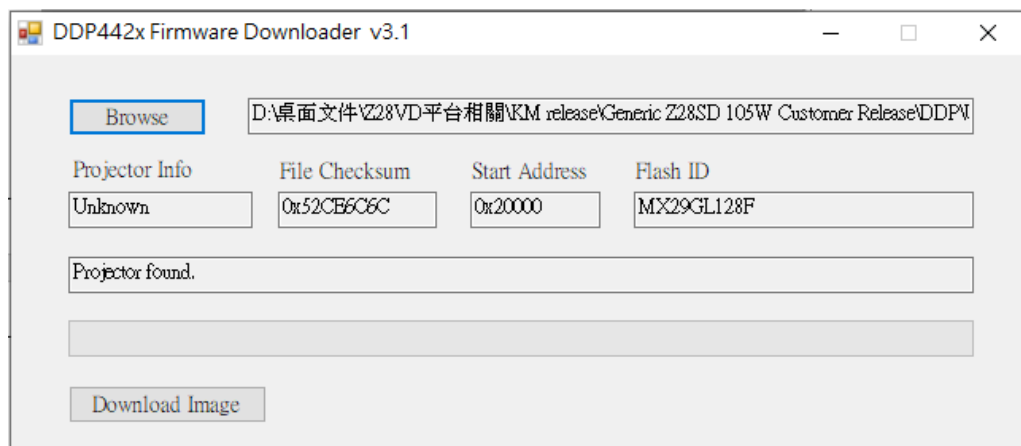

3. Open download application

名稱	修改日期	類型	大小
DDP442x Firmware Downloader	2020/5/21 下午 08:38	應用程式	46 KB
FlashDeviceParameters	2021/1/19 上午 11:47	文字文件	33 KB
ULTRA_Projector_Z28_105W_DDP442x...	2021/5/19 下午 01:27	光碟映像檔	11,307 KB

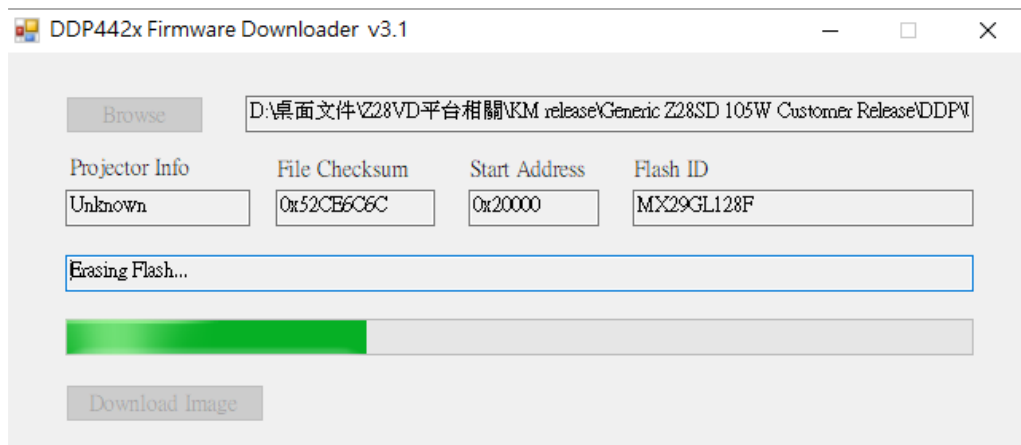

4. Select the file to download and make sure the USB is connected and ready to

download.

5. Press the “download Image” button to proceed the download.

6. When download is complete, power cycle the projector.
