SOFTWARE RELEASE NOTES

Christie Warping Tool v1.20

Applies to the Following Products	Prepared For
• DWU951-Q • DHD951-Q • DWX951-Q • DXG1051-Q	Internal and External Operators and Service Technicians

Summary

The Christie Warping Tool is a computer application to configure the geometric distortion of the projector's images when the images are projected onto screens which have a particular kind of surface such a a cylinder, a spherical shape or so on. The tool creates a warp map, which the user can transfer to the projector through a network connection.

Installation

1. To install the warping software on a laptop or computer, run **ProjectorWarpingTool_V1.20_Christie.exe** (binary).

    For installation and operation instructions, see the *Christie Projector Warping Tool User Manual* (P/N: 020-000711-01).
