

E Series lens adapter for H Series projectors

This document provides information for installing the E Series lens adapter on the H Series projector lenses.

Tools and hardware required

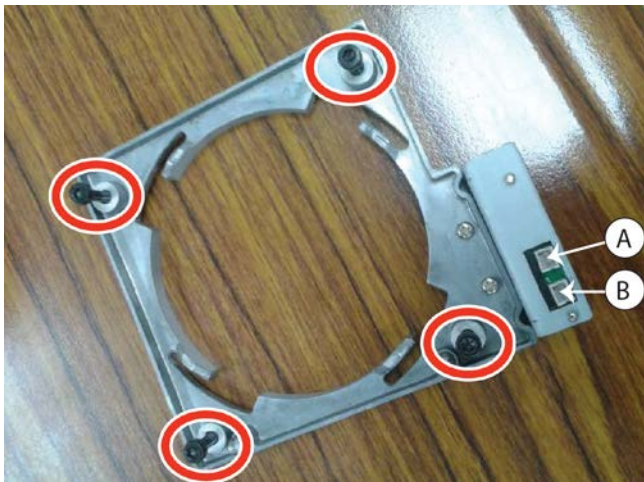

The following tools and hardware are required:

- E Series lens adapter (P/N: 140-112105-XX)
- Hex tool

Installing the E Series lens adapter

Remove the existing lens adapter and install the E Series adapter on the lens.

1. Remove the four screws securing the original lens adapter and remove it.
Make sure to note the location of the connectors on the original lens adapter (A and B in the diagram below).

2. Install the E Series lens adapter ensuring the connector pin is facing up and is on the left-side of the lens motor.

3. Tighten the four screws to secure the adapter.
4. Connect the harnesses as shown below.
