

Software Release Notes

Inspire Series version 1.5.0

This document describes the changes from Inspire Series version 1.4.0 to version 1.5.0.

- Upgrading to firmware version 1.5.0 requires executing the One Package Firmware Update (ODFU) process twice to complete the installation. Subsequent updates will only require a single execution of the process.
- Downgrading from firmware version 1.5.0 is not supported.

Affected products

The following products are affected:

- 4K860-iS
- 4K860A-iS

Purpose of release

The primary purpose of this software release is to fix the following issue:

- Added support for HDR10.
- Fixed the following issues:
 - Boot logo corruption and black screen issues were observed.
 - A green screen on sub-input appeared during picture-in-picture/picture-by-picture (PIP/PBP) operation.
 - 4K60 YUV420 signals had an incorrect aspect ratio.
 - A black screen appeared when the 4K3D dual pipe was active.
