
Technical Bulletin

Christie DWU-HS lens memory functionality

This bulletin provides information about the 0.84-1.02:1 short zoom and 1.02-1.36:1 short zoom lenses functionality.

Due to a hardware limitation (four pins with no encoder implemented), the 0.84-1.02:1 short zoom (P/N: 140-114107-XX) and 1.02-1.36:1 short zoom (P/N: 140-1151108-XX) lenses do not support the focus and zoom memory functionality. These lenses do support the lens shift memory functionality.

Lenses with either eight or ten pins support lens shift, focus, and zoom memory functionality.

Affected products

The following products are affected:

- Christie DWU1612-HS
- Christie DWU2022-HS
