

Complete Cinema Solutions

Chasing all over for an integrated cinema solution? Christie® has it all: awe-inspiring projected visuals, immersive audio, dynamic digital displays and the services to keep your theater running smoothly. Engage your movie-going audience in a complete cinema experience with captivating sights and sounds, in the auditorium and throughout your lobby.

CHRISTIE®

Projection

Entertain with Christie Solaria Series projectors

Powerful and high-performing, you can rely on Christie® Solaria® Series projectors to present films exactly as the director intended. With a variety of format options, including 2D and 3D projection, 2K and 4K resolution and higher frame rates, projectors in this series work well with screens that range from 35 to 105 feet wide and require 8000 to 34,000 lumens. You can choose the size, brightness level, power level, lens and lamp options, and accessories to customize a solution that fits any theater.

Optimize your projection

Christie Duo™

Delivers intensely-bright, large-screen images at a fraction of the cost compared to current industry solutions, giving you the flexibility to build your own premium-brand theater experience.

Christie Previsto™

High Frame Rate (HFR) technology allows your projector to show feature film and alternative content, including 3D, that is released at 48 or 60 frames per second.

Christie ACT

Easily automate tasks and events to adjust light dimmers, masking motors, and control audio levels or the projector and server from any web-capable device on the same network.

Christie IMB Solution

The integrated media block (IMB-S2) comes with its own dedicated network attached storage (NAS-S2) device to convert and deliver packaged feature film content within a secure, DCI-compliant environment, with the highest level of system performance, reliability and flawless 4K and HFR feature film projection.

Christie Avias-TMS

Increase your efficiency by managing multiple projectors and content from a central location through a simple web interface.

Christie SKA-3D

Enables perfect 2D and 3D alternative content playback from a single audio and video cinema processor at a reasonable price.

Christie digital Xenolite lamps (CDXLs)

Match a Xenolite® lamp with your Christie Solaria projector for a low total cost of operation, the highest image quality and a guarantee against defects when used with any Christie digital cinema projector.

Christie's Superior Performance Xenolite lamp series uses the latest in Xenon lamp technology to provide more captivating 2D and 3D experiences, improved stability and a longer life span in digital cinema projection solutions.

Audio

A complete audio solution

Christie® Vive Audio™ combines the superior audio qualities of ribbon driver technology with the proven high performance of a line array speaker design to provide enhanced clarity, dramatically reduced distortion and ultra-fast transient response. Matched with powerful Class D amplification. Christie Vive Audio's expansive line of cinema-specific audio technologies are designed to support any of the leading cinema audio formats including: Dolby® Atmos, 5.1 and 7.1 surround sound and Auro 11.1.

 DOLBY.ATMOS

5.1 / 7.1

Screen channel speakers

The perfect choice for engaging and high-impact sound that envelops your audience. Using our exclusive ribbon driver line array design, Christie screen channel speakers provide enhanced clarity and coverage, improved dynamic range and ultra-low distortion for the accurate reproduction of the original source material.

Surround speakers

Christie's line source surround speakers feature a unique integrated waveguide design to provide enhanced clarity and reduced distortion. The inclusion of the ribbon driver provides ultra-fast transient response. Our line array surround speakers offer the same benefits while also providing perfect timbre matching and extremely uniform coverage for a seamless listening experience throughout the auditorium.

Christie CDA amplifiers

The Christie CDA line of professional amplifiers offer a range of power options and high-speed Class D architecture, delivering high power output and efficiency for long-term, continuous operation.

Subwoofers

Christie Vive Audio subwoofers employ high-performance components with an advanced design to deliver extremely deep bass output with minimal distortion for powerful sound. Our subwoofers can also be combined with our screen channel speakers to create the ultimate full-range audio system.

Christie SKA-3D

A fully integrated DCI-compliant 16-channel cinema processor that also includes a built-in video scaler and consumer/broadcast audio decoding for lossless formats such as Dolby TrueHD and DTS-HD Master Audio®.

Lobby

Draw them in, give them choice

From the moment they step inside your lobby, patrons expect to be entertained and informed. Christie® solutions can enrich your lobby with mouth-watering digital menu boards and dynamic digital box office displays. Where clear, durable and near-seamless displays are a must, Christie's range of thin and elegant LCD panels will complement any environment with HD content. Showcase feature film trailers with large-format Christie MicroTiles® that can be arranged in a variety of sizes and shapes. With the option to include interactivity, they give you creative freedom to engage your patrons.

◀ In-lobby digital menu boards at Rave Cinemas.

Services

Design, deploy, support

Imagine being alerted of a potential issue and having it fixed before it affects your customers. This is the kind of peace of mind we provide. Working alongside our national dealer network, Christie Managed Services will help design, deploy and support a custom cinema solution that's right for you and your patrons.

With a decade of experience, backed by our company's 80 years of success in the industry, Christie Managed Services has the expertise to work for you.

- System design
- Installation
- 24/7 remote monitoring of all your displays and supporting technologies
- Phone support to walk you through any technical issues
- Parts management to ensure you have the part you need, where and when you need it

◀ Our technicians can support a wide array of manufacturers' digital displays, projection technology, audio equipment, servers, switchers and networking products.

Christie. The complete cinema experience

Christie has the projection, audio and digital signage solutions you need to create a fully-engaging cinema experience for your patrons – from the lobby to the theater – along with dedicated support for optimal system performance.
