RealLaser illumination. Unmatched cinematic performance.

The Christie® CP4325-RGB pure laser cinema projector brings a premium movie-going experience to mainstream theatres. Featuring CineLife™ electronics and RealLaser™ illumination, this compact, all-in-one DCI-compliant projector excels in image quality and operational lifetime while providing a low cost of ownership. With the CP4325-RGB, exhibitors can impress audiences with incredibly colorful and detailed, true-to-life images while benefiting from an affordable platform that will perform well into the future.

RealLaser. Real smart.

What sets Christie RealLaser apart? We've taken everything we know from being the preeminent manufacturer of RGB pure laser projectors and coupled it with the latest innovations in laser devices. The result is an incredibly efficient and long-lasting light source that drastically outperforms any other cinema illumination platform. The long, stable operational life of RealLaser powered projectors means they provide the lowest cost of ownership of any cinema projector in their class. Make bringing the art of exhibition to the next level a reality.
