

ChristieNET™ Wireless Portals

ChristieNET™ Goes Wireless with Video

Uses

Corporate and small
business

Education facilities

Local and national
government

Dynamic signage

Christie's Wireless Presentation Portal (WPP) and new Wireless Multimedia Portal (WMP) give you the freedom to roam – while your display device offers the best view in the house.

The Wireless Presentation Portal is perfect for presentations with builds and transitions. The Wireless Multimedia Portal is for media rich presentations with full motion video or even showing a DVD wirelessly. Video and audio are sent to the Wireless Multimedia Portal.

Each Wireless Portal includes a display to wireless adapter and a simple software package that allows users the freedom of wireless presentation and increases ease of use.

Both ChristieNET wireless products are 802.11g compliant products designed specifically for wired projectors/monitors and offers an 802.11g bridge for compatibility with wireless "G" and "B" networks/ clients. When it comes to wireless, security is key; ChristieNET wireless products offer 64/128 bit WEP encryption as specified by the 802.11g standard.

ChristieNET – NET-worked wirelessly.

ChristieNET™ Wireless Portals Specifications

HD15 to wireless adaptor – you don't need to be tied to your display!

Plug and play feature means no need to reconfigure wireless LAN card or IP settings.

Simple user interface works with both Windows and Mac – virtually no set-up required.

- Plug and play – simple user interface that needs no changes to wireless LAN card configuration on PC, or to reconfiguring of IP settings
- HD15 and S-Video/Composite Interface – works with virtually any display device up to XGA resolution
- Application Flexibility – data or multimedia presentation displays
- Direct access to video buffer – fast, real-time response with video at 30fps
- Wireless hub – means multiple users and no set-up time
- Automatic clear channel selection – minimizes interference

Display dynamic presentations or full motion video from your wireless enabled computer
