# LET'S
TRANSFORM

Our easy-to-use tools are always within reach — anytime, anywhere.

CINERGY

CHRISTIE®

ANYTHING IS POSSIBLE

Transform your theatre operations and realize your full potential.

Cinergy, our cloud-based theatre managment plaform is built with you in mind every step of the way. Our powerful yet easy-to-use tools allow you to manage your operations and assets exactly the way you want, and all from one place.

With Cinergy you can automate routine tasks, drive informed decision-making, and resolve potential showstoppers before they happen. And with our software running behind the scenes, you're free to focus on what matters most — delivering the best audience experiences.

Cinergy is easy-to-use, compatible, and secure.

You'll find Cinergy works the way you expect it to, from set-up to showtime and seamlessly integrates with your cinema equipment, no matter the manufacturer. Cinergy is also built secure from the ground up so your data remains yours, always.

More exhibitors use Cinergy than any other solution. It supports more than 26,000 screens, monitors 60,000 devices, and delivers 2,000,000 KDMs per month!

With the right tools at your fingertips, establish your own network operations center and watch your confidence soar.

Centralize control - Manage your theatre operations and assets exactly the way you want, all from one place.

Perform at your best - Achieve maximum efficiency and uptime by automating key delivery and eliminating missing KDMs.

See the big picture - Monitor asset longevity, track consumables, set personalized alerts, and resolve potential showstoppers before they happen.

Leverage real-time data and comprehensive reporting - Data-driven decision-making helps increase confidence, proactivity, and cost-savings.

Stay laser-focused - With our software running behind the scenes you're free to focus on what matters most — delivering the best audience experience and prioritizing revenue-generating activities.

WORK SMARTER, NOT HARDER
DO MORE WITH CINERGY

Key delivery and trusted device list (TDL) management - Automatically distribute and receive keys directly to your screens with full auditing capabilities and proactive alerting. Eliminate missing KDMs that can result in missed shows and lost revenue.

System health monitoring - Ensure the best possible presentation for your guests and prevent dark screens with around-the-clock monitoring, error detection, and resolution.

Asset tracking - Track all digital and non-digital assets. Gain unprecedented transparency into the status and attributes of your equipment, theatre, and auditorium.

Performance reporting - Access pre-built reports, equipment data, and user-customizable dashboards and widgets.

Content monitoring - Centrally monitor all content with comprehensive reporting. View your show schedules, KDM information, and playlists while staying a step ahead with proactive alerting.

Secure remote access - Access your devices anywhere, anytime, without having to worry about lost or stolen data.

Ticketing and knowledge management Streamline all communication within a ticket towards a solution. Efficiently track support requests and easily access centrally stored technical documentation.

Preventative maintenance - Create customized maintenance plans across your entire theatre circuit and schedule service with provider integration capabilities.

Lamp management - Track lamp inventory and alerts while optimizing usage across your theatre circuit. Accurately budget and forecast lamp asset replacement.

Business intelligence reporting - Create, schedule, and deliver reports tailored to your precise needs. Get the insight you need to make informed decisions and drive business performance.

Mobile app functionality - Managing your theatre remotely has never been easier; access key Cinergy components right from your smartphone or tablet.

# EXPERIENCE IS EVERYTHING
Cinergy gets it right.

We're trusted and secure: Your data remains yours, always. And our platform is built secure from the ground up, continuously evaluated to meet strict technical and security benchmarks.

We're multilingual: We support French, German, Italian, Japanese, Korean, Polish, Portuguese, Russian, Spanish, Simplified Chinese, and Traditional Chinese languages.

We're all-inclusive: We seamlessly integrate with your cinema equipment, no matter the manufacturer.

We're truly friendly: Our software works the way you expect it to, from set-up to showtime. It automates routine tasks and makes the complex simple.

Our software grows with you: We meet today's challenges and deliver tomorrow's solutions to adapt to your unique requirements.

Let's get started.
